Objectives

Looking to get the position of a Nurse in a private practice, offering excellent clinical expertise in a health care facility that appreciates dedication, motivation, and enthusiasm for patient care.

Experience

Triaged patients, including taking and recording vital signs and patient history. Spot checks of my results by preceptor returned 99.9% correct findings. Assisted patients with transfer, walking, exam preparation, specimen collection. Received 95% positive feedback from patients for my compassion. Maintained strict adherence to HIPAA at all times. Applied problem solving skills to identify strengths and weaknesses of current solutions. Achieved 25% increase in patient satisfaction with care

Responsibilities

Writing down patient care plans, Implementing patient care plans with tasks such as preparing the patient for operations or other wounds treatment, Monitoring and noting down the pulse, temperature and blood pressure levels of patients, Observing the patient's condition and keeping it recorded, Administering drugs and injections as suggested by the Physician, Assisting to carry out tests and evaluations, Responding ardently to any medical emergency, Planning the patient discharges, Communicating with patients and their relatives.

Declaration
