CAREER OBJECTIVE

To obtain the career in nursing as Registered Nurse where I'll be able to create wide-ranging utilization of my skillfulness and abilities on the way to offering superb patient service into a distinguished health institute.

WORK EXPERIENCE

- **Nursing Superintendent** *01 Sep 2016 – Present*
DMS Hospital Chelari, Malappuram, Kerala, India
 - Ensured high standards of nursing care and behavior towards all patients admitted in the hospital.
 - Implemented hospital policies amongst various nursing units
 - Carried out regular rounds of the hospital
 - Ensured safe and efficient care rendered to patients in various wards etc.
 - Periodically interacted with clinical heads to discuss problems in patient care
 - Educated nursing staff of all categories by conducting awareness programme on universal precautions

- **Head Nurse – Medical ICU** *04 Mar 2013 – 25 Aug 2016*
Aster MIMS Kottakkal, Malappuram, Kerala, India
 - Assessed, planned, implemented and evaluated patient care and performed patient education in accordance to unit standards for all patient types and age groups
 - Trained staff nurses and trainees about treatment plans and options for various life threatening medical conditions
 - Collaborated with professionals across the organization to formulate an integrated care plan
 - Perform administrative duties that facilitate admission, transfer, or discharge of patients.
 - Promoted team environment by effectively identifying needs of other staff and assisting them
 - Co-ordinated nursing staffs in administering medications intravenously, by injection, orally, through gastric tubes, or by other methods

Aster MIMS is a 200 bedded super speciality hospital and its MICU is an 8 bedded ICU with the facilities and equipments like invasive & non – invasive ventilators, multi modular monitors, infusion pumps, syringe pumps, defibrillators etc.

- **Team Leader – Medical ICU**

15 Oct 2007 – 28 Feb 2013

Aster MIMS Calicut, Kerala, India

- Carefully assessed and monitored patient progress in order to watch for sudden or subtle changes in every patient’s medical condition that might require emergency intervention
- Evaluated patients' vital signs and laboratory data to determine emergency intervention needs
- Conducted respiratory and heart monitoring as well as treatment adjustments
- Provided support for the patient and implemented a family-centered model of care
- Trained to treat patients who have suffered strokes, heart attacks or grave wounds, such as stab wounds or head injuries
- Documented patients' medical histories and assessment findings
- Set up and monitor medical equipment and devices such as cardiac monitors, mechanical ventilators and alarms, oxygen delivery devices, transducers, and pressure lines

Aster MIMS was a 600 bedded multi specialty hospital with 9 intensive care units of 104 beds and has a 16-bedded MICU with the facilities and equipments like ventilators, Arterial blood gas analyzer, most modern monitors, infusion and syringe pumps, defibrillators, temporary pace makers etc.
