Professional Summary

Adept dental doctor with 2 years and half of practice experience including house surgency. We were allowed to attend patients from our third year of college which leaves me with almost 4 and half years of experience in handling patients out of which 3 were under the guidance of extremely experienced senior doctors of the respective departments when needed or asked for. Dedicated to exemplary patient outcomes and following all necessary medical procedures with the use of the latest industry equipment and technology. Strong focus on listening and addressing to patient's concerns and answering all questions in terms patients can easily understand. Willingness to work with all members of the team and listen to their suggestions and input to improve results and maximize patient satisfaction. Specialized as a general dentist during house surgency, providing me with knowledge of a range of oral related health issues that impact today's society.

Reason for resigning

Since this work was hardly my end goal, I had to move on. But it wasn't without reservation , advance notice and finding a replacement. I enjoyed my time at smiles dental clinic and will remember a number of the patients and the fellow staff there rather fondly. Building relationships is one of my main draws to the profession.
