- 

## **PROJECT**

(BCA)

### AMMAS KITCHEN

The project named Ammas Kitchen is an application useful for household women to sell their special dishes. There are only 3 users in this application-admin, buyers and sellers. The sellers can upload the detailed information regarding the food items supplied on the day like price, available time, and location with images of the dishes. The buyer can view and book the items. Our website provides a daily changing menu for lunch and dinner. In this system, we are using it to bring the widest variety of home cooked delicacies delivered to customer doorsteps by connecting them to the best of home chefs out in town. Online ordering system will be a web based application whose main language of programming will be ASP.NET. Its main aim is to simplify and improve the efficiency of the ordering process for both customer and restaurant.
