ACADEMIC PROJECTS HANDLED

- **Digital Image Authentication for Judiciary Systems**

  Digital images are now routinely introduced as evidence into courts of law. It has therefore, become critical to verify the integrity of this digital evidence. In this project we determine that if a digital image has been altered in any way from the time of its recording, including manipulations as simple as cropping.

  FRONT END: JAVA , BACK END: MYSQL

- **Innovative Web Campus**

  Innovative Campus is a web application project used by College to manage the college activities online. The project entitled Campus Suite is college information application that can provide information about the student to their parent on their mobile phones.
