CAREER OBJECTIVE

Seeking a suitable post as a Junior resident to contribute to the wellness of patients under the care of the hospital; supervise, assist and undertake treatment of patients, contribute to research and development in disease control and healthcare education; and to contribute to the overall growth of the organisation.

SUMMARY

Highly professional and organised medical doctor with strong skills in assessing, diagnosing and treating general health conditions, including illness and injuries, and examining patients and educating them on treatment plans and healthy lifestyle. Posses excellent communication skills, clinical procedural knowledge, team worker and problem solving and analytical reasoning skills.

EXPERIENCE

Alappuzha Medical College

Junior Resident - Cardiothoracic Department

-

Conducted physical examination of patients to diagnose illness and create patient histories.

Provided direct medical care and treatment to patients based on medical histories, physical examination and screening evaluations as well as referred them for speciality care and hospitalisation in emergency or serious medical cases.

Built and maintained strong relationship with patients and their families by providing emotional support and thorough education about course of treatment, medication, and disease prevention.

Prescribed radiology and pathology tests as needed and evaluated patient conditions first hand.

Conducted daily rounds to monitor recovery and progress; and followed up on outpatients on a weekly basis.

Worked collaboratively with senior medical officers to ensure smoother and timely access to medical services for patients.

Assisted senior surgeons in surgical and non surgical procedures.
