FIELD EXPERIENCE

➤ INTERNSHIP EXPERIENCE

Chhanv Foundation (Sheroes Home and Sheroes Hangout) Noida & Agra, India:

Chhanv foundation works for the acid attack victims in India and works as a bridge between the survivors and the society.

- **Role and Responsibility**
Worked with Administration Department and involved in the projects. Interviewed survivors & drafted their stories. Also monitored the regular work and English learning class of the survivors at the café and communicated with the guests.

➤ FIELD PLACEMENTS IN MSW (2017-2019)

Tamil Nadu Kidney Research Foundation (TANKER) Ambattur, Chennai, India:

TANKER works to provide quality, affordable treatment to underprivileged people with kidney ailments and to create awareness, to detect and prevent kidney ailments.

- **Role and Responsibility**
Medical Social Worker – Worked with the clients in TANKER dialysis unit and TANKER Awareness and Kidney diseases prevention unit by participating and conducting programs.

Mission Kerala, Pathanamthitta & Alappuzha districts, Kerala, India:

Organised and participated in 'Mission Kerala'- Psycho-Social Rehabilitation Camp for the victims of Kerala Floods (2018) organized by the Department of Social Work, MCC.

Department of Psychiatry, Sri Ramachandra Medical Centre, Porur, Chennai, India:

The department works for providing better psychiatric care for the patients. They undertake innovative research activities to promote positive mental health among people.

- **Role and Responsibility**
Psychiatric Social Worker- Worked with the department of Psychiatry's in-patient ward and out-patient ward. Worked along with de-addiction and substance abused people and also psychotic and neurotic patients.

Change India, Gerugambakkam, Chennai, India:

Change India is a NGO which works in promoting responsive governance, equity, grassroots democracy, democratization such as tolerance, dialogue, rule of law, reducing caste and communal conflicts, heightened sensitivity to environmental pollution and imbibing values of the Constitution are ways of addressing the above diseases that plague in India.

- **Role and Responsibility.**
Worked for the Manual Scavengers and Conservancy workers working under the Chennai Corporation. Conducted survey on the well-being of conservancy workers and analysed data on the difference among permanent and contract based workers.

St. Thomas Mount Community (Open community placement), Chennai, India:

Students were placed in a community setting and worked for health and hygiene awareness among women and children in the community. Trainees also worked for the resettlement of the community to their allotted houses in Padappai.
