EMPLOYMENT DETAILS (Latest First)

Consultant

Fortis Hiranandani Hospital

Key specialty of interest Cardiac, Neuro, Renal Transplant, Onco Surgery including Maxilofacial and Thoracic. Epidural for Pain Management.

Clinical Associate Consultant

HOD: DR. E.P.Borgees

I worked in this renowned hospital as a clinical associate consultant . This is around 300-bedded hospital with 60 ICU beds. Most of the time, I was posted in cardiac and neuro cases. Major cases in cardiac are CABG's and valve replacements. Other cases are lobectomy, total pneumectomy and all types of bypass surgeries of major arteries. Major elective neuro cases are supra tentorial and posterior fossa tumors, aneurysms including bypass for giant aneurysms, acoustic neuromas in sitting and semi sitting positions. Major uro-surgical cases are renal transplant, radical nephrectomy and cystectomy with ileal conduit. Major orthopedic cases are TKR, THR, and DHS, Shoulder replacements in semi sitting positions, pelvic fracture fixations, and ilizaro's techniques of limb lengthening. Spine surgeries includes Harrington's rod fixations, anterior and posterior spine fixations. Onco-surgeries include commando operations, oesophagectomy with gastric pull through. I used to manage all general surgeries, ENT cases, Opthal cases and all types of gynaec surgeries. I used to manage all cases in CT scan, MRI, DSA and cath lab like coronary angiography,

angioplasty, ASD closure and TEE. Pain management is by IV PCA pumps, Epidural pumps and catheter for nerve blocks with nurse's records of patient comfort.

Full Time Consultant

Shushsrusha Hospital

I worked as full time consultant for short time. I used to manage all types elective and emergency cases. I used to manage intensive coronary care unit and ICU's as a part time Intensivist.

Junior Specialist in Cardiac Anaesthesia

HOD: Dr. Nagaraj Gowda

I was working as a Jr consultant in cardio-thoracic anaesthesia under supervision of Dr.Nagaraj Gowda. My duty includes providing anaesthesia for all types of cardio vascular elective cases. Surgeries are CABG (on pump with or without arrest heart, on fibrillating heart). I used to manage triple vessel disease for CABG on beating heart. We used to use PA catheter for all cases with PAH. Valve replacements (single or double), ASD and VSD closures, thoracic surgeries with one lung ventilation and etc. I used to actively participate in management of thoracic and abdominal aortic aneurysms repair under DHCA (Deep Hypothermic Cardiac Arrest). Pediatrics cases include congenital heart surgeries (intra cardiac and extra cardiac procedures) like TOF correction, PDA closure, BDG's, Modified BT Shunts, All types of TAPVC's Cardiology intervention procedures like PDA coiling, ASD device, BMV, BAV, PTCA. PACE maker implantation etc. I used to manage cardiac surgical ICU and coronary care units independently under the supervision of respective consultants. Emergency duties once in three days by rotation.

Cardiac Resident

HOD: Prof. Dr. Rupa Sridhar

I was working as a resident in cardiac anaesthesia under supervision of Prof. Rupa Sridhar. Under supervision of consultant I used to manage all types of cardio vascular elective cases like valve replacements (single or double), CABG's (on and off pump), ASD and VSD closures, lung surgeries with one lung ventilation. I used to actively participate in management of thoracic and abdominal aortic aneurysms repair under DHCA (Deep Hypothermic Cardiac Arrest). Cardiology intervention procedures like PDA coiling, ASD device, BMV, BAV, PTCA. PACE maker implantation etc. I used to look after cardiac surgical ICU and coronary care units independently under the supervision of respective consultants. I used to do emergency duties once in three days by rotation. Academics include case presentation, symposium, and seminar every week. I used to take lecture classes for anaesthesia technicians and nursing students.

Neuro Resident

HOD: Prof, Dr.R.C.Rathod

I was working as a resident in neuro anaesthesia under supervision of Prof R.C Rathod. My duties includes regular all types of neuro elective cases like aneurysms, posterior and anterior fossa SOL excision, temporal lobectomy, acoustic neuromas, awake craniotomy and spinal cord surgeries. Neuro radiological intervention procedures like embolization, stenting, coiling, MRI procedures etc. I used to look after neuro surgical ICU and neuro medical ICU independently under the supervision of respective consultants. I used to do emergency duties once in three days by rotation. Academics include case presentation, symposium, and seminar every week. I used to teach lecture classes for anaesthesia technicians and nursing students.

Assistant Professor

HOD: Prof, Dr. Ramkumar.V

I was consultant in Kasturba medical college hospital. This hospital is around 1200-bedded hospital with super specialization branches. Equipped with 15 operating rooms. I used to post independently along with one postgraduate for all specialties including thoracic surgeries (one lung ventilation), head and neck onco surgeries. I used to manage all pediatrics, obstetrics trauma emergencies independently. I used to manage independently all types of critically ill patients in eight-bedded multidisciplinary intensive care unit (MICU), which was under supervision of Anaesthesiologist. MICU cases include OP compound Poisoning, ARDS, Burns, post op cases, cardiac cases and etc. Academics includes, as a moderator for case presentations, journal club, symposium. I used to teach lecture classes for under and postgraduates, anaesthesia technicians, respiratory therapists and nursing students. Every month I used to participate in monthly mortality meeting. I used to help postgraduates in preparing for final exams and dissertation.

Clinical Assistant

HOD: Dr Pramila Kurkal

This hospital is around 300 bedded super specialty hospitals. I was working as a full time Clinical assistant, participating in everyday elective cases include general surgery, ENT, Ortho, Ophthal, Neuro and cardiac cases. I used manage independently cath lab and other neuro radiology investigational cases. By rotation, I used to do emergency duties once in four days.

FAMILIAR WITH FOLLOWING PROCEDURES

- > General and regional anaesthesia.
- > Epidural drug administration.
- > Regional Nerve Blocks.
- > One Lung Ventilation.
- > Awake Craniotomy.
- > Renal Transplant.
- > Resuscitation Protocols.
- > Maintenance of open airway
- > Endotracheal intubations (oral and nasal)
- > Starting and setting of ventilators with different modes of ventilation
- > Techniques of weaning from ventilators
- > Implementation of noninvasive ventilation
- > Placement of central venous catheter (by different routes)
- > Placement of Swan Ganz catheter
- > Placement of arterial catheter (by different routes)
- > Placement of Intra aortic balloon pump
- > Sedation and pain management
- > Interpretation of arterial and mixed venous blood gases.

ACHIEVEMENTS

First anaesthesiologist to do awake craniotomy (Surgeon Dr. Sunil Kutty) in Navi Mumbai.
(Published in newspaper ad on YouTube).

I have done many high risk cases both elective and and emergencies (Surgeon Dr. Shishir Shetty), which were published in newspapers.

PUBLICATIONS

My dissertation is on ketamine under the guidance of Prof, Dr. K.J.Mariswamy.
“ Intrathecal ketamine for lower limb surgeries”

TEACHING EXPERIENCE

- I have enough experience in teaching medical students and nurses as an Assistant professor.
- Benefited from active participation in a well-supported and structured postgraduate academic programme.
- Other academic activities include
 - Weekly x-ray meetings
 - Regular monthly mortality meetings
 - Active participation in Journal club and regular seminars.

- Actively participated in workshop on defibrillators during
- APGAP-2003 conducted in Manipal along with Prof. Dr. Elsa Verges

SURGICAL SPECIALITY OF INTEREST

- Oncosurgery.
- Cardiac Surgery.
- Neurosurgery
- General and Laproscopy Surgery
- Bariatric Surgery.
- Orthopedics.
- Gynaecology.
- Uro Surgery.
- Renal Transplants.
- Plastic and microvascular reconstruction Surgery.
- E..N.T Surgery.

(Do not practise paediatric and obstetrics).

PERSONAL PROFILE

- . I have good verbal and written communication skills. I am flexible and able to work with change.
- . I believe I am an easy person to get along with and look forward to working as a part of a multi-disciplinary team.

INTERESTS AND HOBBIES

- . I enjoy playing cricket, chess and morning walk.
- . I represented my school and college in cricket and won many tournaments.
- . I enjoy listening to Indian old Hindi classics
- . I also enjoy pencil sketch, Rangoli.
