- Review the existing environment and run the sar reports and AWR Report.
- Done the bug fixing of Oracle Databases and scheduled the backups and retention policies.
- Diagnose the performance bottleneck issues and addressed to the Bank and stakeholders with the Action Plan or the recommendation fixes.
- Prepared the MD 120 document for signoff.

Project : Migration/Support of Oracle EBS from HP 9000 to HP Itanium Server**Type** : Migration**Platform** : HP Ux**Software** : Oracle 11g Database, Oracle E-Business Suite 11.5.10.2, Oracle Golden Gate**Modules** : HRMS, FINANCIALS, ORDER MANAGEMENT**Client** : Max Specialty Films (Migration), C& S Electric (Solution Designing) & SITA AERO**Role** : Consultant, Red-Partner, Individual Contributor

- Prepared the solution design and migration plan for the based on the current environment.
- Perform the migration from HP 9000 to Itanium Servers with high availability configuration on Active Passive Cluster.
- Prepared the MD 120 document for signoff.

Project : Backup Configuration for Oracle and SAP environment on HP Data Protector**Type** : Backup Configuration**Platform** : HP Ux**Software** : Oracle 11g Database, SAP R3**Modules** : HR, FI, CO, SD, MM**Client** : Jindal Stainless**Role** : Consultant, Individual Contributor

- Prepared the backup plan for the based on the current environment.
- Implemented the backup plan with advanced backup strategy for all the environments.
- Prepared the MD 120 document for signoff.

Project : Oracle EBS Upgrade from 11i to R12, OID 11g Implementation and integration with EBS, Discoverer and OBEE 11g, Oracle DataGuard and Active Dataguard**Type** : Upgrade and Support of Oracle EBS, Fusion Middleware**Platform** : Red Hat Linux**Software** : Oracle Apps 11.5.10.2 to 12.1.3, Oracle Golden Gate**Modules** : HRMS, Financials, SCM (OM)**Client** : ARBONNE, Hampton City Schools, City of Virginia Beach, Sandals Resort, MBTA**Role** : Consultant, Individual Contributor

- Upgrade Oracle EBS from 11i to R12.
- Implemented OID and integrated with Oracle EBS, OBIEE and Discoverer 11g.
- Configured the Active DataGuard for Oracle EBS and Peoplesoft Database.
- Configured the Oracle Grid Infrastructure 11g R2 for Peoplesoft Database
- Performed the Performance Tuning of the database and complex sql query.
- Implemented Oracle 11g Grid Control and setup the agents on EBS, RWMS and RPM databases.
- Implemented Oracle Golden Gate 12c for utilizing the Oracle EBS Data for Third Party Applications.
- Performed the regular Retek DBA admin tasks and configured the RMAN backups on Networker.
- Migration of historical data from Sybase to Oracle.
- Implemented the DC-DC Mapping in OID Integration with MS Active Directory 2008.
- Fixing the Bar Code Printer Issues on Oracle EBS.
- Configured the OBIEE to pull the data actively for forecasting and warehouse management and supply management purpose.

- Fixing the Adhoc issues during the Oracle EBS and OID integration with not a proper data being populated after the integration.
- Handling the user login issues and general daily issues in regards to the same.
- Performed the application load test using JMeter and Load Runner.

Project : **Oracle Portals, Oracle Identity Management and Oracle Database**
Type : Oracle database, Oracle Fusion Middleware
Platform : Red Hat Linux
Software : Oracle Portals 10g, OID 10g
Modules : University Portals
Client : University College Cork, Staffordshire University, Medical College of Georgia, City of Cleveland, University of Windsor, University of Nevada-Las Vegas, Prince Williams County Schools, Research Federal Institute of Sunny, Medanta –The Medicity, Essex County College, Brevard Community College, Imperial College of London
Role : Consultant, Individual Contributor

- Provided the support to Portal, OID and Oracle Database.
- Implemented the DataGuard for Medanta – The Medicity.
- Performed the application load test using JMeter and Load Runner.
- Worked with Oracle Support for complex issues.

Project : **Agility Logistics (R12.1.1 HRMS, SSO, Discoverer, OBIEE)**
Type : Implementation (Oracle HRMS, Compensation 7 Benefit, Time and labor, Payroll, OID – SSO, DR, OBIEE and Discoverer 10g)
Platform : Red Hat Linux
Software : Oracle Apps 12i, Oracle Golden Gate
Modules : HRMS,PMS, Compensation and Benefits
Client : Agility, Kuwait
Role : Involved and the main architect for Agility logistics Oracle EBS

Agility logistics is the biggest logistics leader in the Middle East. It is one of the biggest logistics brand with over 55 offices globally.

Project : **Oracle 11i Migration from IBM AIX to Linux**
Type : OS Migration
Platform : Red Hat Linux, IBM AIX
Software : Oracle Apps 11i, Oracle Applications 11.5.10.2
Modules : GL, AP, AR, CRM
Client : Phones 4U, UK
Role : Manager - Oracle Apps DBA

Phones 4U is one of the biggest retail stores in UK form mobile based applications and there are using over 22 modules of Oracle Applications. The project involves the OS migration and high availability and performance enhancement on OS level.

Project : **Oracle 11.0.3 Domino US, Domino UK**
Type : Recovery
Platform : Hp UNIX
Software : Oracle 11.0.3
Modules : GL, AP, AR, CRM
Client : Domino Printing, UK
Role : Manager - Oracle Apps DBA

Domino Printing is one of the oldest clients of Oracle for Oracle Applications. The tasks involved were to recover the crashed Oracle 11.0.3 up and running with no proper backups. Performed the recovery and brought the Production up and running.

Project : **MOTOROLA - EMEA**
Type : Implementation
Platform : Sun Solaris 8

Software : Oracle Apps 11.0.3
Modules : MFG
Client : MOTOROLA - EMEA
Role : Technical Specialist- Oracle Apps DBA

Motorola is one of the oldest Oracle Application clients and is using 11.0.3 version of Oracle Apps. The basic DBA roles and responsibilities includes

Project Aviza, Optisolar (ORACLE 11.5.10.2 TO ORACLE APPS R12i)
Role Oracle Applications DBA (Shared Support Services)
Environment Oracle Applications 11.5.10.2, REDHAT LINUX4.

Responsibilities

- : Cloning the PROD to UAT and DEV.
- : Compiled the forms of CUSTOM TOP.
- : Applied maintenance patches, patch sets and mini patches.
- : Creating and maintaining Users, Responsibilities, and Menus.
- : Managing the terminations at the client system in Oracle Applications HRMS system.
- : Create the different TOP's and don't ADHOC troubleshooting in bring up the Oracle Applications.
- : Coordinating with Oracle support for logging tar and knowledge based search to find solution to the problems that are occurring in the live server and while applying patches (tar, Bug search, and User forum participation)

Project ACCENTURE (ORACLE 11.5.10.2 TO ORACLE APPS R12i)
Role PROJECT LEAD
Environment Oracle Applications 11.5.10.2, REDHAT LINUX4.

Responsibilities

- : Upgraded the Red hat Linux Kernel from 2.2.25 to 2.2.65 that is upgraded Redhat AS3 to Redhat AS4.
- : Upgraded the Oracle database from 9i to 10.2.0.3.
- : Upgraded the Oracle Apps technology stack.
- : Upgraded the developer 6i to developer 9i.
- : Upgraded the IAS ORACLE HOME and upgraded the discoverer 10g.
- : Compiled the forms of CUSTOM TOP.
- : Applied maintenance patches, patch sets and mini patches.
- : Create the different TOP's and don't ADHOC troubleshooting in bring up the Oracle Applications.
- : Coordinating with Oracle support for logging tar and knowledge-based search to find solution to the problems that are occurring in the live server and while applying patches (tar, Bug search, and User forum participation)
- : Mentored the junior and freshers by providing them the Oracle DBA / Oracle Apps DBA trainings from time to time.

Project DUETSCHKE BANK (IMPLEMENTATION), MANILA
Role PROJECT LEAD
Environment Oracle Applications 11.5.10.2, IBM-AIX.

Responsibilities

- : Maintenance of installed Oracle Applications Release 11.5.10 suite and Troubleshooting.
- : Sysadmin, Database cloning, Patch applying, Alerts, concurrent manager related troubleshooting and other Apps DBA functions
- : Adhoc troubleshooting.
- : Checking the concurrent manager and concurrent related activities and troubleshoot them.
- : Cloning of production instance on regular basis
- : Backup maintenance and scheduling and standby server troubleshooting.
- : Troubleshooting the performance related activities.
- : Creating and maintaining Users, Responsibilities, and Menus.
- : Managing the terminations at the client system in Oracle Applications HRMS system.
- : Coordinating with Oracle support for logging tar and knowledge-based search to find solution to the problems that are occurring in the live server and while applying patches (tar, Bug search, and User forum participation)

Project BRITISH TELECOM (IMPLEMENTATION)
Role TEAM LEAD
Environment Oracle Applications 11.5.10.2, HP-UNIX 11.

Responsibilities

- : Checking the concurrent manager and concurrent related activities and troubleshoot them.
- : System administration functions like creating users, creating responsibilities and menus.
- : Creating and maintaining Users, Responsibilities, and Menus.
- : Managing the terminations at the client system in Oracle Applications HRMS system.
- : Space management
- : Adhoc troubleshooting
- : Coordinating with Oracle support for logging tar and knowledge-based search to find solution to the problems that are occurring in the live server and while applying patches (tar, Bug search, and User forum participation)

Project EMC SYNERGY (IMPLEMENTATION)
Role TEAM LEAD
Environment Oracle Applications 11.5.10.2, SOLARIS.

Responsibilities

- : Maintenance of installed Oracle Applications Release 11.5.10 suite and Troubleshooting.
- : Sysadmin, Database cloning, Patch applying, Alerts, concurrent manager related troubleshooting and other Apps DBA functions
- : Adhoc troubleshooting.
- : Checking the concurrent manager and concurrent related activities and troubleshoot them.
- : Cloning of production instance on regular basis
- : Creating and maintaining Users, Responsibilities, and Menus.
- : Managing the terminations at the client system in Oracle Applications HRMS system.
- : Backup maintenance and scheduling and standby server troubleshooting.
- : Troubleshooting the performance related activities.
- : Loaded the data through SQL Loader.
- : System administration functions like creating users, creating responsibilities and menus.
- : Space management
- : Coordinating with Oracle support for logging tar and knowledge-based search to find solution to the problems that are occurring in the live server and while applying patches (tar, Bug search, and User forum participation)

Project E- MATRIX-ONE PLM
Role Oracle DBA

The company is Asia's largest compressor manufacturer and India's leading Service Station Solution Provider.

Responsibilities

- : Installed Oracle 9i on Windows NT.
- : Creation of table spaces and users and granting privileges.
- : Implemented STATSPACK for Performance report.
- : Started and shut down instances.
- : Troubleshooting
- : Database backup and recovery procedures, security implementation including routine maintenance activities.
- : Development of proper backup and recovery strategies.

Project E-Gain Communications
Role Oracle DBA/Apps DBA

Responsibilities

- : Support 11.0,3 version of Oracle E-Business Suite.
- : Troubleshooting
- : Weekly and Daily health checkup of Oracle EBS environment.
