3. Indian Association of Surgical Gastroenterology (IASG)
4. Association of Surgical Gastroenterologists of Kerala (ASGK)

CAREER OBJECTIVES :

I had completed my MCh degree in Surgical Gastroenterology from a tertiary centre in GI Surgery, HPB Surgery and Liver transplantation in 2014. My primary objective is to work in a center of excellence in Gastrointestinal and Hepatobiliary Surgery, whereby I can contribute to the smooth conductance of

routine Departmental activities, as well as participate in the academic programs. As I was a part of the Liver transplantation program in Amrita Institute of Medical Sciences over a period of six years, I am interested in becoming a part of a Liver transplant program and utilizing my experience for the overall growth and betterment of the program. I am also interested in clinical research and am keen to participate in the clinical trials that are being conducted or will be conducted by the department.
