PROJECTS

PREVALENCE OF PREECLAMPSIA AND ITS CORRELATION WITH LOW BIRTH WEIGHT BABIES IN A RURAL TEACHING HOSPITAL OF KARNATAKA

This is a research project conducted in my tertiary hospital under the guidance of Dr. Raghavendra SK, Professor in Department of Community Medicine to prove the correlation between preeclampsia and low birth weight babies of preeclamptic mothers. The study shows Pre-eclampsia, as an important risk factor, has influence on low birth weight.

ACTIVITIES

Volunteer at one week camp conducted at Nagamangala by Rotaplast International , a team of US board certified doctors conducting free cleft lip and palate ,post burn contracture surgeries for the poor and dejected people of the community. Around 100 patients were evaluated and operated as a free service from January 26 to February 9, 2020. Was blessed with opportunity to assist facial and palatal surgery by Dr Richard Zienowicz, a renowned plastic surgeon ,at Providence, US.

Member and ex Local Exchange Officer of Medical Students Association of India (MSAI) in collaboration with IFMSA, initiated student exchange program in our college Adichunchanagiri Institute of Medical Science, as a result of which the incoming student to our college was a German medical student , Ms Franziska Schroeder for one month of clerkship in Dept of Community Medicine.

Conducted Fright Fight or Flight campaign in BGS model school as an initiative of MSAI, where the students of class 3 to class 7 were taught self defence techniques which can be applied in case any unfortunate, untoward incidences or life threatening situation they face with.

Conducted flood relief campaign during Kerala floods 2018 with the support of MSAI and Adichunchanagiri Institute of Medical Science and was able to raise funds and materials in a generous amount and was able to transport the plentiful materials to areas of relief camps in a timely fashion.

Attended National General Assembly conducted by MSAI in Kempegowda Institute of Medical Science where group discussions about various ways of improving public health, personal hygiene, and controlling environmental pollution were discussed.
