Current position

Working as senior resident in the department of Pediatrics in government medical college thrissur.

Career objective :

Seeking employment as a pediatrician in a reputed hospital for me to practice and expertise in the same field.

Educational background :

MBBS – 2009 to 2015 from government medical college trivandrum
MD pediatrics from government medical college thrissur

Professional summary :

I had done my mbbs from trivandrum medical college where I did my internship for 1 yr. After that I worked as a casualty medical officer in some private superspecialty hospitals.

Casualty medical officer

- *Krishna hospital & lakshmi hospital ernakulam(2015 December to 2016 February)
- *City hospital, ernakulam (2016 December to April 2017)

I have been in the general pediatrics training for past 4 years in government medical college thrissur and I am about to complete my senior residency on 2/7/2022.

During my residency I have worked in wards, speciality clinics, pediatric and neonatal icu on rotation basis. I have experience in all pediatric and neonatal critical care interventions which are being done at tertiary care hospital level.

Skills

*Well versed in pediatric and neonatal intubation and other emergency and critical care procedures in PICU and NICU including
Central line insertion, ICD insertion, peritoneal dialysis, surfactant administration, exchange transfusion.

*Utilizing comprehensive knowledge of medical conditions and services to assist in delivering and monitoring medication and treatment plans to pediatric patients from infants through teenagers.

*Communicating between pharmacists, pediatric nurses, and laboratory staff to ensure appropriate and necessary treatment plans, medications, and diagnostic testing.

*Advising parents and/or guardians on topics regarding diet, vaccinations, physical activity, hygiene, and disease prevention.

*Accurately documenting patient information and communicating with ancillary staff.

*Interacting with patients and families to manage expectations and ensure continuity of care.

CME and Conferences

*I have participated in several CME and conferences including ventilation workshops, NRP, BLS and PALS and have certificates of the same.

Research work

I have done a thesis work on "clinical and biochemical profile of children with autoimmune thyroiditis on follow up" and now in the process of publishing it.
