OBJECTIVE

To secure a responsible career opportunity, where I can fully utilize my training, human resource and management skills, while making a significant contribution to the success of my employer.

SKILLS

- Primary eye care management
- Patient history taking
- Visual acuity testing
- Subjective refraction
- Objective refraction
- Orthoptic evaluation
- Biometric evaluation
- IOP measuring
- HFA evaluation
- Color blindness test
- IOL Master And A scan
- Opticals and Frame selection
- IPD marking and dispensing
- Patient Counselling skills

INTERESTS

- subjective and objective Refraction
- Orthoptics evaluation
- Biometry
- Cataract evaluation
- Opticals and Sales department

LANGUAGE

- Malayalam
- English
- Tamil
- Hindi

EDUCATION

- 2016-2018** Government higher secondary school, mankada
HIGHER SECONDARY
80 %
- 2018-2022** Alagappa university, Karaikudi Tamil Nadu
Bsc Optometry

EXPERIENCE

- September -2021 - July 2022** Al Salama Eye hospital
Optometrist (internship)

PROJECTS

To determine the reason in which patients return due to the failure of acceptance with lens spectacles

This study was reviewed to determine the primary reason for the failure of spectacles. From the collected resources I was able to conclude that the most common problem was dispensing error, followed by incorrect prescription, inability of the patient to adapt to an accurate refractive correction and cosmetic problems.
