OBJECTIVE

Dedicated pulmonologist with proven skills in counselling patients, bronchoscopy, and other pulmonary interventions, preventive care, and research work. Adept in properly diagnosing and strategizing for the best patient treatment plans. To associate with an institute that dynamically progresses provides the best medical care to the patients, and gives me a chance to learn about new medical care facilities and also update my knowledge. Seeking to join as a Senior Resident at an Academic institute as I am interested in academic research work.
