EXPERIENCE

10/2021-07/2022

GOVERNMENT MEDICAL COLLEGE AND HOSPITAL

Aurangabad

Clinical Pharmacy Intern

Departments: Medicine (General & OPD), Pediatric, Obstetrics and Gynaecology

- Evaluated patient histories to assess medication compliance and spot issues.
- Review of all patient medication profiles, anti coagulation monitoring and counselling, clinical review of high-alert medications.
- Accurately documented treatment, medications and IVs administered, discharge instructions and follow-up care. Attended Ward rounds & reviewed patient medication profiles and medical records to screen for appropriate drug selection, dosing, contraindications, side effects and therapeutic outcomes.
- Educated patients on medication therapy, proper nutrition and fitness, blood glucose, blood pressure monitoring. Educated patients on possible drug interactions, potential side effects and optimal methods of administration.
- Identified and helped resolve drug interactions. Recorded patient medical history, applicable test results and vitals into medical records. Calculated doses for renal and hepatic disease patients.
- Assessed, evaluated, and cared for neonate and paediatrics patients. Educated patients and families on psychiatric medications, as well as psychiatric disorders. Discussed medical histories with patients to provide for effective medical advice. Explained test results to patients to help make decisions about lifestyle choices, future healthcare, and treatments for gynecologic or obstetric issues.
