DVL)

OBJECTIVES

Sincere, goal-driven and passionate about Clinical Dermatology and Cosmetic Dermatology. Good communication skills, empathetic towards the patients' needs, hardworking and highly efficient with a good educational record and interpersonal relations. I am hoping to mould my career by working with a team of experienced Dermatologists at your prestigious institution

STRENGTHS

During the course of my post-graduation, I have become well-versed in procedural dermatology (including radiofrequency, electrocautery, comedone extraction, chemical peels). I have assisted and performed laser procedures independently and I am familiar with Diode laser, Q-switch Nd-YAG laser, Pulse Dyed laser and Carbon dioxide laser – ablative, non-ablative. I have also assisted in microblading procedure and vitiligo surgeries. Currently I am working as the only dermatologist in KIMS Health, Attingal therefore I am positive about handling OPD and procedures alone.
