

Anju A

Social Worker

ABOUT ME

As an empathetic individual, my efforts have always been to understand the needs of those around me and to support them in times of need. Becoming a social worker is an extension of this fundamental trait. I hope to use what I have learned to help others in a professional capacity. I am looking for a job in the health care field that will allow me to fulfil my dream. As a social worker, I hope to provide professional assistance to those who are ill and to guide caregivers through the recovery process.
