PROFESSIONAL PROFILE

An independent, organised and self motivated Food Science and Nutrition graduate with a great passion for Nutrition and people's well being. I have worked more than 2 years in research "Standardisation and quality evaluation of millet based probiotic yoghurts" as a part of my post graduation. I have done 2 months internship programme in Daya Hospital, one of the reputed hospitals in Thrissur. I have excellent communication skills, both written and oral and I am able to work independently as per the directions from the respective authority.
