To secure the position of a Microbiology lab trainee in your reputed hospital to expand my learnings and skills and to acquire more knowledge from experienced senior staff.

🏥 EXPERIENCE

MALANKARA ORTHODOX SYRIAN CHURCH MEDICAL COLLEGE HOSPITAL November 2019 -
Kolencherry ,Ernakulam

GENERAL HOSPITAL July - August 2021
Changanacherry

SH MEDICAL CENTRE June - August 2022
Nagamapadam

🎓 EDUCATION

Bachelor Of Science in Medical Microbiology 2023
School Of Medical Education,Gandhinagar
Kerala University Of Health Sciences

12th 2018
Chavara CMI Public School, Pala
CBSE

10th 2016
Mary Matha Public School, Kadaplamattom
CBSE

🔬 PROJECTS

Phenotypic detection of Carbapenemase production in clinical isolates of Escherichia coli and Klebsiella pneumoniae by mCIM and eCIM method.

- Carbapenemase producing *E.coli* and *K.pneumoniae* were isolated from samples.

-Detected different types of Carbapenemases – metallo-β-lactamases (MBL) and serine Carbapenemases in the isolates.
