### Objective

I am a student persuing bachelors in microbiology. Handles sterilization techniques , staining , bioinstrumentation , microscopy . Test and analyze microscopic bacteria, fungi and viruses, working for hospitals and medical labs .Preparation of different types of media, solutions and reagents for the isolation of microorganisms. Growth, isolation & identification of microorganisms. Bacterial staining such as Gram staining , spore staining , negative staining etc

### Personal Details

- Date of Birth : 28/02/2003
- Nationality : Indian
- Marital Status : Single

### Education

- MES College Marampilly  
BSc.Microbiology

### Skills

Staining techniques	100%
Biochemical analysis	100%
Microscopy	100%
Microbial observation and growth	100%
Water analysis and quality control	100%
Good laboratory practice	100%
Asceptic technique maintenance	100%
Hanging drop techniques	100%
Blood cell count rating	100%

### Additional information

- HACCP

research, analyse and monitor microbes – microscopic organisms that include viruses and bacteria – in a range of settings, including healthcare, industry and pharmaceutical development

### Language

- Japanese
- Hindi
- English
- Malayalam
- Arabic

### Activities

- Photographical analysis of microbes
- Observational patience for motility of bacterias
