## Objective

I seek opportunities to broaden my skill set and acquire more knowledge to provide quality service through my work. I want to increase my experience and have a fulfilling career as a doctor.

## Experience

### WIMS MEDICAL COLLEGE

PMR junior resident

3/8/2021 - 26/11/2021

This experience gave me an opportunity to understand and manage the symptoms faced by patients who were bedridden for a long period of time.

### Ernakulam general hospital

intern

16/7/2020 - 1/3/2021

I had a good exposure to a variety of cases and learned about the basic management requirements and skills.

### Kannur medical college

intern

1/11/2019 - 15/3/2020

I learned the basic management skills such as history taking and initial assessment.

I am working as a junior doctor in the casualty of Marian hospital, Pala. I was able to manage and identify a vast diversity of cases while I was there.

## Education

### Kerala University of Health Sciences

2019

MBBS - second class

### De Paul Public School

2013

All India Senior Secondary - 71.4

### De Paul Public School

2011

Secondary School examination - 9.4

## Skills

I'm a good observer and a fast learner. I try to learn what I can from the opportunity I'm front of me. I try to handle situations as calm as I can and keep my co-workers and patients as comfortable as possible. My experience as an intern helped me learn about a lot of areas including basic surgical skills and medical emergencies. I worked as a junior resident in the department of PMR in wims which gave me an insight about the basic management of bedridden patients.
