EMERGENCY PHYSICIAN

PROFILE

Being a self motivated, highly skilled and compassionate emergency physician seeking challenging job opportunities, I commit to provide exceptional medical care in emergency situations and to contribute my extensive experience & knowledge to a reputable healthcare institution that values patient-centered care and continuous professional development.

PROFESSIONAL EXPERIENCE

DNB Resident (Emergency Medicine), Manipal Hospitals

July 2020 - July 2023

- 3 years of residentship in a fast-paced, high-pressure environment.
- Experienced in resuscitation, had the opportunity to work as a team leader in code blue team.
- Skilled in diagnosing and treating diverse medical emergencies, including trauma, cardiac emergencies, respiratory distress, and neurological emergencies.
- Demonstrated expertise in emergency procedures like endotracheal intubation, CVC, arterial line, HD catheter, tube thoracostomy, regional nerve blocks, procedural sedation and other life saving interventions.
- Skilled in interpreting ECG, X-rays, CT scans, MRI and laboratory results to aid in accurate diagnosis and appropriate treatment decisions.
- Experienced in POCUS (Point Of Care Ultra Sound) for trauma, surgical and medical cases.
- Serving through all three COVID waves has shaped me into a resilient leader who excels under pressure alongside fellow medical professionals.
- Strong leadership and communication skills, adept at coordinating multidisciplinary teams in high-stress situations.
- Up-to-date knowledge of the latest advancements in emergency medicine, through continuous education.

Tutor - Forensic Medicine, KMCT Medical College

August 2017 - July 2018

Intern - Academy of Medical Sciences, Pariyaram (Govt. Medical College, Kannur)

January 2016 - February 2017
