Clear understanding of Heart rhythm analysis, cardiovascular fluoroscopy images and Scrub technique. Motivated to learn, grow and excel in the Cardiology Arena.

## Experience

- Completed three years of classes along with alternative clinical postings { 2018-2022}
- Full fledged duty in covid-19
- One year compulsory rotatory internship { 2022-2023}
- Worked as a part time cardiac technologist in Medline diagnostics { 2022-2023}

## Postings

Completed my clinical postings in following wards;

- Cardiology OPD ,
- Intensive coronary care unit,
- Intensive medical care unit,
- Cardiac catheterization laboratory,
- Treadmill testing room
- Echocardiography room,
- Holter room,
- Cardiology ward ,

## Skills

- 12-lead EKG monitoring
- 12-lead EKG Rhythm analysis and interpretation
- Treadmill test analysis and interpretation
- Hemodynamic analysis and interpretation

- ACLS and BLS skills
- Experience in ICU with critically ill patients such as mechanical ventilation.
- Experience in echocardiographic examination in any setting including acute care setting
- Diagnosing different cases with multiple echo views including 2d TTE, TEE, Strain imaging.
- Experience with Intravascular Ultrasound (IVUS), Optical Coherence Tomography (OCT), Rotablator, high risk PCI
- Excellent written and interpersonal communication skills
- Independent initiative skills with maximum responsibility
- Cost reduction strategies
- Echocardiography including Transesophageal and Stress echocardiograms.
- Good Work Ethic
- Active Listening & Reliable & Trustworthy
