OBJECTIVE

Motivated and compassionate recent Master's in Social Work graduate with a strong desire to make a meaningful impact as a Medical Social Worker. Possessing a comprehensive understanding of social work principles and a keen ability to assess and address the unique psychosocial needs of patients and their families in medical settings. Skilled in providing emotional support, advocacy, and resource coordination to individuals facing challenging medical conditions. Proven expertise in collaborating with interdisciplinary healthcare teams to develop comprehensive care plans and ensure the holistic well-being of patients. Demonstrated commitment to enhancing the quality of life for diverse populations through empathy, active listening, and culturally sensitive interventions. Seeking an opportunity to contribute to a dynamic healthcare environment and facilitate positive outcomes for those navigating complex medical circumstances.
