PROFILE

- I choose microbiology as my major because food,pharmaceuticals , agricultural and hospital's provided a lot of opportunities and I find myself suitable in this area . Microbiology has helped to treat and prevent diseases which are caused by viruses, bacteria,protozoa and fungi.In medicine microbiology led to the discovery and development of antibiotics and vaccines . Microbiology has a huge impact of our lives.so I choose microbiology.Speaking of my personal life, I live with my parents and my elder sister . I spend most of my free time either with family with family or friends.I do have hobbies like watching movies and reading books. I have a calm and patient nature..

KNOWLEDGE ABOUT SUBJECT

Microorganisms and their activities are vitally important to virtually all processes on earth.Microorganism matter because they affect every aspect of our lives they are in us ,on us and around as.

I know various laboratory techniques in microbiology including to identify the microorganisms, growth of microorganisms in different media and the structural, functional and biochemical activities of microorganisms in pure of mixed form for human and ecological welfare.

PROJECT:"ANTIBIOFILM ACTIVITY OF LACTOBACILLUS SP AGAINST URINARY TRACT INFECTION CAUSING KLEBSIELLA PNEUMONIAE"

SEMINAR:

Attended national seminar on "Bioactive Compounds From Natural Resources: Emerging Trends And Challenges" organized by department of Biosciences,Sree Sankara College, kalady Kerala.

Attended International webinar series on "Surviving the Pandemic:A Disease Tolerance Perspective". organized by department of Biosciences and Internal Quality Assurance Cell ,Sree Sankara College kalady Kerala.

WHY I AM THE PERFECT CANDIDATE

- I am.a very organized and detail oriented person,which makes it easy for me to follow standard operating procedures in the lab. This is important because it improves the accuracy and integrity of our test results. I also take through notes during every stage of my research. This makes it easier for me to double check my work and collaberate with other team members
