SCHOOL OF MEDICAL EDUCATION , CPAS, GANDHINAGAR, KOTTAYAM
- 2018 • **PLUS TWO**  
BAKER MEMORIAL GIRLS HIGHER SECONDARY SCHOOL, KOTTAYAM
- 2016 • **SSLC**  
SAN. THOME HIGH SCHOOL, KANAMALA, KANJIRAPPALLY

## PROJECTS

- **Bsc Final Year Project / Phenotypic Detection Of ESBL Production In Clinical Isolates Of Escherichia Coli And It's Antibiotic Susceptibility Pattern.**  
  
: High proportion of ESBL Producing strains were isolated from the urine sample.  
  
: Carbapenem, Cephamycine, Fosomycin, Nitrofurantoin, and beta- lactamase inhibitors are used for empirical treatment of ESBL positive Escherichia coli.  
  
: Constant surveillance of antimicrobial Susceptibility and monitoring of ESBL is recommended.

## DECLARATION

- I here by declare that all the above informations are true to the best of my knowledge
