CERTIFICATIONS:

TOUCH-POINT NURSING, INC.

Registered Nurse | Jun 2013

Intensive Care Certification | Jun 2018

Trained in caring for patients with life-threatening medical conditions and operating critical care units in hospitals/healthcare facilities.

Basic Life Support | April 2021

Basic Life Support (BLS) is a crucial set of skills for healthcare providers, first responders, and anyone who may need to help in a medical emergency. BLS techniques support the airway, breathing, and circulation of a person in distress. The course covers recognizing cardiac arrest, chest compressions, rescue breaths, AED use, choking management, bleeding control, and basic first aid. It is important to stay up-to-date with BLS training to be confident and effective in a crisis.
