Adherence to ATLS protocol in Primary survey

Achievements

- Leveraged comprehensive knowledge of emergency medicine to assess, treat, stabilize and transport seriously ill or injured patients to area hospitals and trauma centers.
- Provided skillful medical care to revive and stabilize patients suffering from traumatic injuries, cardiac arrest, strokes, seizures, drug overdoses, hypothermia, and other serious conditions.
- Calmed and reassured patients and family members, enabling the accurate gathering of crucial information (c.g., allergies, medications, pain levels) to aid in care decisions.
