## SKILLS

Sample collection of adults and newborn,  
Analysis and lab report production.

well versed in laboratory software and digital reporting.

knowledge of state approved lab policies,  
hygiene, requirements and general/ standard procedure.

Hardworking, teamwork, Leadership, Good communication

## OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization. To perform daily quality control and the requested analyses according to the laboratory policy. To perform the special sophisticated tests to recognize abnormal or unusual test results and follows instruction procedure for reporting critical values. Use universal safety precautions to protect self and co workers from the bio hazardous materials, including blood pathogens. Maintain stock of all reagents. Overseas the entire laboratory technical and non technical operations.
