WORK EXPERIENCE

Anesthesia Technician

Seventhday Adventist Hospital Ottappalam

03/2023 - Present

Palakkad, Kerala

Achievements/Tasks

- Adjusted and monitored injectable and inhaled anesthesia and sedation by thoroughly assessing vitals and health of patients.
- Performed blood gas analysis, using blood gas analyzing and centrifuge equipment to monitor and determine carbon dioxide, sodium, pH and oxygen saturation in patients.
- Stocked anesthesia supplies in anesthetizing locations, fiber optic carts, ploss carts and emergency airway bags.
- Maintained and cleaned anesthesia machines by changing soda-lime, refilling vaporizers with anesthetic agents and replacing nitrous, oxygen and air cylinders.
- Operated invasive hemodynamic monitoring equipment, intubation bronchoscopes and ultrasonic scanning devices under direction of licensed anesthesia provider.
- Handled emergency situations by stepping in to perform CPR on patients until anesthesiologist arrived.
