WORK EXPERIENCE

Registered Staff Nurse | Medical Surgical Department | Renai Medicity, Kochi Kerala **Sept 2022 – Dec2023**

- Provided direct patient care, stabilized patients and determined next course of action.
- Managed care from admission to discharge.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Educated patients, families and caregivers on diagnosis and prognosis, treatment options, disease process and management and lifestyle options.
- Implemented medication and IV administration, catheter insertion and airway management.
- Updated patient charts with data such as medications to keep records current and support accurate treatments.
- Collected blood, tissue and other laboratory specimens and prepared for lab testing.
- Organized and managed care of patients undergoing various therapies and procedures.
- Evaluated healthcare needs, goals for treatment and available resources of each patient and connected to optimal providers and care.
- Monitored patient condition by interpreting and tracking ECG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Advised patients and caregivers of proper wound management, discharge plan objectives, safe medication use and disease management.
- Conferred with physicians to discuss diagnoses and devise well-coordinated treatment approaches.
- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence.
- Maintained quality care and comfort for patients with heart failure, pulmonary hypertension and other conditions.
- Reviewed post-operative orders and continuously monitored patients' post-operative vitals, set up PCA and fluids and oriented patients to unit.
