# NOYAL AUGUSTINE

## PROFESSIONAL SUMMARY

Qualified Anesthesia Technician highly trained in anesthesia processes, equipment and safety standards. Careful to track patients' responses and quickly intervene to manage symptoms. Confident in handling routine and emergency situations.

## SKILLS

- Patient Monitoring
- Heart saver CPR AED
- Ultrasound-guided procedures
- Induction Assistance
- Airway Management
- Equipment Setup
- Anesthetic Equipment Maintenance
- Emergency Response
- Problem-Solving
- Invasive Blood Pressure Monitoring
- Extubation Assistance
- Intubation Assistance

## WORK HISTORY

November 2019 - December 2020

**Lisie Hospital - Anesthesia Technician**, Ernakulam, India

- Assisted anesthesia personnel with insertion and setup of temporary pacemakers, catheters, invasive monitoring lines and central lines for hemodynamic monitoring.
- Assisted with transports of invasively monitored O.R. and I.C.U. patients.
- Maintained and cleaned anesthesia machines by changing soda-lime, refilling vaporizers with anesthetic agents and replacing nitrous, oxygen and air cylinders.
- Assisted in maintaining a safe operating environment by consistently adhering to regulatory guidelines and hospital policies related to anesthesia support services.
- Streamlined workflow for smoother procedures by maintaining anesthesia equipment, supplies, and documentation.
- Handled emergency situations by stepping in to perform CPR on patients until anesthesiologist arrived.
- Operated invasive hemodynamic monitoring equipment, intubation bronchoscopes and ultrasonic scanning devices under direction of licensed anesthesia provider.
- Pretested and calibrated anesthesia delivery systems and monitors.
- Maintained sterile anesthesia supplies within expiration date.
- Provided airway management interventions, tracheal intubation, and ventilatory support.
- Reduced procedure complications through proficient insertion of intravenous lines and arterial catheters under supervision.

November 2023 - Current

**Manipal Hospitals - Anesthesia Technician, Bengaluru, India**

- Assisted anesthesia personnel with insertion and setup of temporary pacemakers, catheters, invasive monitoring lines and central lines for hemodynamic monitoring.
- Ensured proper functioning of operating room equipment through routine inspections and preventive maintenance tasks.
- Streamlined surgical procedures through efficient organization and preparation of instruments and equipment.
- Streamlined workflow for smoother procedures by maintaining anesthesia equipment, supplies, and documentation.
- Stocked anesthesia supplies in anesthetizing locations, fiber optic carts, ploss carts and emergency airway bags.
- Maintained and cleaned anesthesia machines by changing soda-lime, refilling vaporizers with anesthetic agents and replacing nitrous, oxygen and air cylinders.
- Worked effectively in fast-paced environments.
