I wish to be in a challenging work environment where I can effectively utilize my valuable experience and working skill which enable me to work with a progressive attitude and promise me a good career.

### EDUCATION QUALIFICATION

- **DIPLOMA** 2017  
Diploma in Mechanical Engineering from Matha College Of Technology at N.Paravoor
- **Bachelor of Computer Application** 2024  
Rabindranath Tagore University  
Awaiting for Results
- **PLUS TWO** 2014  
Plus Two From Kerala State
- **SSLC** 2011  
High School from NSS HSS Parakkadavu (Kerala)

### TECHNICAL QUALIFICATION

- **NEBOSH IGC**  
National Examination Board In Occupational Safety and Health – International General Certificate
- **IOSH managing safety**  
Institution of Occupational Safety and Health
- **ISO 45001:2018**  
**Occupational health and safety management systems**  
Pursuing
- **Medic First Aid**  
Successfully completed the training program with combined adult CPR & AED
- **Indian Red Cross**  
First Aid Certificate
- **Diploma in Industrial Safety & Construction Safety Engineering**  
from Safety Tech Management at Edapally
- **Health Safety Environment Engineering Techniques**  
National Development Agency-Promoted by Govt. of India
- **Advanced Safety Officer Training Certificate**

### TRAINING

- **Basic H2S Training** (Approved by **OPITO** - Offshore Petroleum Industry Training Organization)  
From **GTSC** - Gulf Technical and Safety Training Centre.
- **EEBA Training** (Emergency Escape Breathing Apparatus)

- **BBS Training** (Behavior-based safety) Conducted by Bureau Veritas (world's leading certification body)
- **APLO Training (Appointed Person For Lifting Operation)** Conducted by Bureau Veritas
- Incident Investigation Report Training
- Certificate of Training - **Confined space Entry Awareness** (ORYX GTL Qatar)
- Certificate of Training - **Working at Height and Scaffolding Awareness** (ORYX GTL Qatar)
- Certificate of Training - **Permit to Work/Site Supervisor** (ORYX GTL Qatar)

## ACADEMIC PROJECTS

- **Fifth Wheel Parallel Car Parking System**

### Project Overview

The fifth wheel car parking system is a new technology that allows drivers to park their cars in tight spaces more easily. The system consists of a fifth wheel that is mounted on the rear of the car. The fifth wheel can be lowered to the ground, allowing the car to pivot on its rear wheels. This makes it possible to park the car in a space that is only slightly wider than the car itself. The fifth wheel car parking system is a new technology that has the potential to revolutionize the way we park our cars.

## INTERNSHIP TRAINING

- An internship training of 10 days at **Cochin Port Trust** in Automobile sections of the I.C Engines division. The port is working to reduce the environmental impact of its IC engines by investing in new technologies, such as hybrid and electric engines.

## ROLES & RESPONSIBILITIES

- **1.** Develop and implement comprehensive HSE management systems, policies, and procedures to ensure a safe and healthy work environment for all employees.
- **2.** Conduct regular site inspections and audits to identify potential hazards, ensure compliance with safety regulations, and implement corrective actions as necessary.
- **3.** Lead and conduct risk assessments, hazard identifications, and job safety analyses to minimize risks on the worksite and develop risk mitigation strategies.
- **4.** Design and deliver HSE training programs for employees, contractors, and management to foster a culture of safety and ensure everyone is informed of their safety responsibilities.
- **5.** Monitor HSE performance metrics and compile reports to evaluate the effectiveness of HSE initiatives, identify trends, and develop strategies for continuous improvement.
- **6.** Manage the documentation and record-keeping processes related to HSE activities, including incident reports, inspection records, and compliance documents, ensuring accurate and timely documentation.
- **7.** Serve as the primary point of contact for all HSE-related issues, liaising with regulatory agencies, external auditors, and other stakeholders to ensure compliance with local, state, and federal regulations.
- **8.** Lead investigation efforts for accidents, incidents, and near-misses, determining root causes and implementing corrective actions to prevent recurrence.
- **9.** Develop and oversee emergency response plans and procedures, including evacuation plans, emergency drills, and first-aid response, to ensure preparedness for any emergency situation.
- **10.** Stay abreast of emerging industry trends, regulatory changes, and best practices in HSE management to continuously improve the organization's HSE standards.
