### OBJECTIVE

To obtain a role as a neurotechnologist in which I can apply my educational background and time management skills to provide quality assistance to both physicians and patients

### SKILLS

- Clinical and theoretical knowledge in neuro electrophysiology and neurology.
- Basic knowledge in neuro anatomy, physiology and microbiology.
- Excellent organization and management in neuroelectrophysiological studies.
- Good listening and communication skills
- Basic computer skills
- Good reasoning and problem solving abilities.
- Basic computer skills.
- Good reasoning and problem solving abilities.
- Ability to work independently and in a team.
- Following protocols.
- Time management.
- Cleanliness and organization.
- Professional bedside manner.
- Patient education.
- Recordkeeping and documentation.
- Attention to Detail.

### EXPERIENCE

22/03/2023 - **Medical Trust Hospital, Kochi**  
21/09/2023 Neurophysio Technology Intern

### EDUCATION

2019-2023 **Medical Trust Hospital, Kochi**  
Diploma in Neuro Technology  
Passed

2017-2019 **GMVHSS Ambalappuzha**  
11th and 12th  
70%

2016- 2017 **GHS Mannanchery**  
10th SSLC  
90%

### REFERENCE

**Dr Ashalatha Radhakrishnan- clinical professor, consultant Epileptologist. R Madhavan Nayar center for Comprehensive Epilepsy Care (RMNC)**  
**Sree ChithralTirunal institute of Medical Sciences, Thiruvananthapuram.**  
**9847416123**

**Dr Dilip K Mathen- Consultant Neurologist, Head of Neurology.**  
**Medical Trust Hospital, Kochi**  
**+91 484 2358001**

**Dr M N Radhakrishnan Nair - Consultant Neurologist**  
**Medical Trust Hospital, Kochi**  
**+91 484 2358001**

**Dr Sangeetha C Joseph- Consultant Neurologist**  
**Medical Trust Hospital, Kochi**  
**+91484 2358001**

**Dr George Mothi Justin- Consultant Pulmonologist**  
**Medical Trust Hospital, Kochi**  
**+91 484 2358001**

**Dr Vivian Wilson-consultant pulmonologist**  
**Medical Trust Hospital, Kochi**  
**+91 484 2358001**

**Dr Varghese Louis- Consultant Pulmonologist**  
**Medical Trust Hospital**  
**+91 484 2358001**

### PROFESSIONAL ACHIEVEMENTS

Enthusiastic and motivated to work with patients, families and care teams efficiently.

Dedicated and meticulous professional bringing more than 1 year of experience readying patients for invasive and non-invasive tests and procedures.

- Self- Motivated.

## LANGUAGE

- English
- Malayalm
- Hindi

proficient in healthcare facility and neurophysiological standards and competent inoperating in high-volume and high- stree settings.

Practiced at assisiting clinical ang surgical leaders with the diagnosis and the treatment of acute and chronic patient conditions.

Highly organised and proffesional in diverse routine and comlex situations.

Sets up and operates equipment , collects histories and provides comfort to patients .

To seek and maintain full- time position that often proffesional challenges utilizing interpersonal skills, excellent time management and problem-solving skills.

## I HAVE GOT HANDS ON EXPERIENCE IN :

Performs all routine digital EEG and VEEGs ( NEEG , AEEG and LTM) along with electrocorticography in an epilepsy monitoring unit setting.

Nerve conduction studies and assisiting in electromyogarphy in EMG studies.

Performing all the evoked potential studies( BAEP, VEP, MEP, SSEP).

Performs sleep studies such as polysomnography , pap titrational (CPAP, BIBAP, auto ventilation and servo ventilation), Multiple sleep latency test ( MSLT) and maintenace wakefulness test ( MWT).

Performs cEEG monitors patients who comes with seizure emergencies especially refractory and super refractory status epilepticus.

Automatic function tests and autonomic pain tilt test.

Teaching neuro electrophysiology students.

Maintains records of all the procedures.

Organizes workflow in laboratory.

Assume resposibility for equipment breakdown and cordinate biomedical services for repair.

Report processing of all the procedures done in neurolab.

Attend to all call duties when required

Performs other duties as assigned.

## HAS WORKED ON:

Nicolet->EEG and EMG.

XITEK->EEG and PSG, RMS -> EEG

Resmed -> PAP titration.

## DUTIES AND RESPONSIBILITIES

Used expertise in neurophysiology areas to help diagnose and treat neurological diseases and other acute and chronic concerns.

Documented observations and baseline measurements in medical records.

Interacted effectively with patients , Families , staff and other hospital departments staff to deliver high levels of customer services and teamwork.

worked as part of team of physicians , nurses or other healthcare professionals to manage patient care by assisting with medical procedures or related duties.

Cathered , charted and analyzed patient history data and duscussed key points with clinicians.

Cared for patients by providing personal assistance and ambulation. Educated patients about procedures , answered questions and provided comforting works to control anxiety and enhance procedure results.

Questioned patients about medical backgrounds to obtain accurate health history data and optimize treatment palns.

Oversaw needs of patients in long-term healthcare center, consistently providing high level og quality care.

Checked patients identifying information against records to uphold strict security, and safety and regulatory standards.

Used critical thinking to break down problems, evaluate solutions and make decisions.

## DECLARATION

I solemnly declare that the information in these resume is true to that best of my knowlege and belief.
