## Objective

Results-driven coding professional ensuring high quality accuracy rates, and optimizing coding processes. Seeking a position where I can leverage my expertise in escalating production and quality concerns, collaborating with teams, and reviewing reporting to drive continuous improvement and achieve coding excellence.

---

## Experience

### UniBiosys Biotech Research Labs

Trainee

On job training in Molecular detection of food pathogen including biological sample collection and molecular detection of food pathogens, staining and microscopic examination of microorganisms, PCR .

---

Certified professional coder

---

## Education

### *International institute of medical coding, Kottayam*

CPC Certified

Membership - #02207735

— (81%)

---

### *St. Berchmans Autonomous College, Changanacherry*

Bachelor's degree in Zoology and Industrial microbiology

2022 — 8.7

---

### *J. J. Murphy memorial higher secondary school, Yendayar*

Higher secondary education : Biology Science with Mathematics

— 88

---

### *KPM Public school and junior college, Mundakayam east*

High school education

— 9.4

---

## Skills

- CPC certified medical coder
- Strong understanding of medical terminology, anatomy, and physiology.
- Proficiency in medical coding systems.
- Knowledge of coding guidelines and regulations.
- Knowledge in Microsoft excel.
- Proficient in Microbiology laboratory techniques and PCR.
- Fast adaptability
- Ability to work under pressure

---

## Projects

### **Isolation and characterization of microorganisms from used face masks.**

Thesis work

---

## Achievements & Awards

Certificate in French

Certificate in basic psychology (online) by Yale University

Wheebox national employability certificate

Attended workshop in Biocomposting

CPC Certified

---
