PROFILE

A dedicated Pharm D graduate possessing the capability to efficiently manage multiple tasks, along with specialized proficiency in Pharmacovigilance, Clinical Research, and pharmaceutical care. I have a distinct expertise in Adverse Drug Reaction (ADR) monitoring and reporting. My skills extend to the detection of drug-drug interactions, identification of medication errors, and proficient patient counselling.

I am currently seeking a position that affords me the opportunity to perpetuate my learning and refine my skills. I am dedicated to delivering high-quality work and am eager to contribute to organizational goals by embracing challenges and showcasing my abilities.
