**Dear
Sir/Madam,**

I am submitting my job application for the role of XRAY Technologist available with your hospital.. I have comprehensive experience in working on XRAY and noting the results correctly. As an accomplished and detail oriented professional, I feel my extensive knowledge and ability to perform the basic medical procedures renders me the best fit for your team.

I am listing down my key role responsibilities for your review:

Verify the correct working of XRAY Machine and report the issues if any.

Maintaining good radiographer patient relationship.

Collecting detailed history of patient - checking patient's previous reports etc.

Ensure no metallic implant with in patient's body.

Contacting with Radiologist for any queries regarding patient history, clinical history.

Continuous monitoring of patient Maintaining the records and reports of patient up to date.

Explain the whole procedure to the patient.

Comply with the patient's safety standards.

I would like to thank you for reviewing my job qualifications. Enclosed is my resume to provide you further information about my educational qualifications and occupational history. I hope to get a face-to-face round of discussion and explain my job qualifications to benefit as your next XRAY Technologist.

Sincerely

SAJNA S
