SUMMARY

Newly licensed clinical pharmacist who is disciplined, organised and effective communicator with patients, caregivers, physicians, nurses and other healthcare professionals. Passionate about learning and providing assistance to Prescribers and to involve in planning therapeutic regimen in compliance to Standard Therapeutic Guidelines. Seeking to work as a clinical pharmacist in an environment with job satisfaction and professional growth.

EXPERIENCE

Currently doing Clinical Pharmacy Internship, 07/2023 - I currently work here

St James Hospital - Chalakudy, Thrissur, India

- Develop and implement patient care plans
- Review and verify prescription for accuracy, completeness and appropriateness.
- Addressed patient concerns and provided guidance
- Participated in multidisciplinary rounds with healthcare teams to discuss patient progress and medication related issues
- Provide drug information to healthcare professionals and assist in evidence based decision making
- Implement medication safety initiatives to prevent medication errors and adverse reactions
- Involved in tailoring medication regimen based on patient specific factors such as age, renal and hepatic function and concomitant medicines
- Collaborated with physicians to discuss potential incompatibility issues with patient prescription
- Promote health and wellness through patient education, campaigns and medication adherence programmes
- Participate in quality assurance activities such as medication error prevention, adverse drug reactions monitoring and continuous quality improvement activities
- Addressing patient queries, resolving medication related issues and fostering positive relationship with patients and healthcare providers
- Medication reconciliation: collection of patients past medical, surgical and medication history
- Provided counselling to patient or patient caregiver on various diseases and medication administration, side effects, dosage regimen and administration
- Maintained patient medical histories, applying confidentiality standards and privacy legislation when handling records.
- Complied with GPhC standards and other relevant guidelines to provide safe pharmaceutical services and minimise risks.
