Professional Summary

Detail-orientated and organised recent graduate with degree in Bio medical Engineering and keen desire to gain practical experience. Ready to apply comprehensive education and personal skills in communication to assist biomedical engineering team. Prepares thoroughly for all assignments and completes accurate, precise work.

Experience

Govt. Medical College Kozhikode

13/10/2022 - 13/10/2023

Biomedical trainee

- Proficient in handling a wide range of hospital equipment
- Developed comprehensive documentation for installation, calibration, and breakdown calls of biomedical equipment.
- Managed and maintained inventory, history cards, and reports for biomedical equipment.
- Proficient in diagnosing and resolving equipment malfunctions promptly.
- Developed and implemented emergency response protocols for critical equipment failures.
- Demonstrated strong attention to detail, problem-solving, adaptability, and effective communication.

Laxmi hospital ernakulam

20/03/2024 -

Biomedical engineer

- Skilled in preventive maintenance, including the preparation of checklists and scheduling planned preventive maintenance (PPM).
- Ensured adherence to regulatory standards and compliance with health and safety guidelines.
- Conducted training sessions for hospital staff on equipment usage, maintenance, and safety protocols.

Education

KMCT College of engineering for women, Calicut

2018-2022

Bachelor of Technology, biomedical engineering

7.04

Velom Higher Secondary School Cherapuram, Velom

2016-2018

Higher Secondary, Science

82.25

Skills

- Time management -Good communication Skills -Team Building

Projects

Diabetic foot ulcer detection using knn algorithm

This project aims to find diabetic foot ulcer using sensors and knn algorithm at early stages.

Languages

English, Malayalam, Hindi
