## Hard Skill

- Advanced SRS Techniques
- Treatment Planning and Delivery:
- Patient Care and Safety:
- Clinical Oncology practice
- Brachytherapy

## Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
- interdisciplinary Collaboration

## Education Background

- Government medical college  
Thiruvananthapuram  
Bachelor of Medicine, Bachelor of Surgery  
Completed in 2016
- AIIMS, JODHPUR  
MD : Doctor of Medicine  
Completed in 2021

## About Me

I am a passionate MD in Radiation Oncology with a keen interest in advanced radiation oncology techniques, particularly in Stereotactic Radiosurgery (SRS) and hypofractionated stereotactic radiotherapy (hFSRT). My expertise extends to a comprehensive understanding of Clinical Oncology practices, encompassing chemotherapy for various solid malignancies. I have actively contributed to cervix brachytherapy (ICBT) and assisted in few interstitial brachytherapy procedures. My clinical interests primarily lie in Neuro-oncology, where my passion for utilizing innovative techniques intersects with a commitment to enhancing patient care. Outside of my professional pursuits, I find solace in reading books

## Professional Experience

ALL INDIA INSTITUTE OF MEDICAL SCIENCES, JODHPUR

2021 – Present

Key responsibilities:

- Managing radiation oncology OPD
- Cytotoxic Chemotherapy of all solid malignancies
- EBRT (LINAC (ELEKTA versa HD), Monaco TPS) of all sites
