WORK EXPERIENCE

2023-2024

Internship

Sapthagiri institute of medical sciences
bengaluru, Karnataka,560092

- Internship Experience:Anesthesia Technologist Intern at sapthagiri institute of medical science, Bengaluru, Karnataka| july 2023 - January 2024
- Assisted senior anesthesia technologists in operating and maintaining anesthesia equipment during surgical procedures.
- Prepared operating rooms by setting up anesthesia machines, monitors, and related equipment.
- Monitored patients vital signs and assisted with airway management under the supervision of licensed anesthesia providers.
- Maintained accurate records of anesthesia procedures and patient information in compliance with hospital protocols.
- Participated in team meetings and educational sessions to enhance knowledge of anesthesia techniques and safety procedures.
- Received positive feedback from supervisors for attention to detail and ability to work effectively in a fast-paced healthcare environment.
- Assisted in the induction, maintenance, and emergence phases of anesthesia administration, including monitoring patients vital signs and adjusting anesthesia levels as directed by supervising anesthesiologists.
- Participated in pre-operative patient assessments, interviewing patients to gather medical history information and address any concerns or questions they may have had.
- Contributed to the development and implementation of anesthesia care plans, working closely with anesthesia providers and other members of the surgical team to ensure patient safety and comfort.
- Conducted post-operative patient evaluations, monitoring patients recovery from anesthesia and providing appropriate interventions or support as needed.
- Actively engaged in educational opportunities and training sessions offered by the hospital, enhancing knowledge of anesthesia equipment, procedures, and best practices.
