Work Experience

**March 2024 -
Till Date**

RADIOLOGIC TECHNOLOGIST

MGDM HOSPITAL

KOTTAYAM, KERALA

- Compassionate care to patients during imaging procedures. They may need to calm anxious patients, provide reassurance, and address any concerns they may have.
- Maintain accurate records of imaging procedures, including patient information, imaging parameters, and any relevant observations. They may also enter data into electronic medical records (EMRs) or other information systems.
- Explaining procedures to patients, assisting them onto examination tables, and immobilizing them using appropriate devices to ensure clear images and patient safety.

**December 2022 -
April 2023**

RADIOLOGIC TECHNOLOGIST

TESLA SCANS AND LABS

COIMBATORE, TAMILNADU

- Using computerized tomography equipment to capture diagnostic images of patients' internal organs and tissues. Appropriately positioning patients to scan specific areas of their bodies.
- Performing regular warm-up sequences on the CT scanner to prolong the life of the X-ray tubes.
- Correctly interpreting doctors' written scanning instructions.
- Explaining scanning procedures to patients and providing reassurance and support as required.
- Verifying patients' identity and reviewing physicians' orders before beginning x-ray procedures.
- Positioning patients accordingly, which may include lifting and moving patients with limited mobility.
- Limiting patients' exposure to radiation by placing lead shields on patients where needed.
- Working closely with the resident Radiologist to determine whether further tests are

required.

- Operating x-ray equipment to take dental films of teeth and jaws Taking dental radiographs of teeth and jaws to help diagnose dental problems such as cavities, infections, or fractures.
